The "old fashioned flowers like Grandmother used to have" are bigger and better than she ever had, which is bringing them back into immense popularity and "there's a reason." No other class of plants are so easy to have at so little cost, requiring almost no attention after they are planted. They just go on year after year increasing in beauty until a bed or border or even an entire Perennial Garden is truly "a thing of beauty and a joy forever."

Delphinium
Hollyhocks
